Wildspire's crowd funding campaign for the Realm Reforged, hosted on Gamefound, consisted of 195 miniatures. In addition to the 5 support boxes above there were Animals, Close Encounters, Ranged Encounters, NPCs, Monsters, and Undead. However, these groups did not have box images during the pledge management portion of the crowd funding campaign, though extras could be ordered if desired. There was an option of 4 colors for miniatures that have multiple copies. The basic gray works well for the reference images. I chose to use the HeroQuest Female Elf miniature from the 2021 release for comparison.
